NEGOTIATED SERVICE AGREEMENT

Docket No. CP2014-80

NOTICE OF UNITED STATES POSTAL SERVICE OF FILING A FUNCTIONALLY EQUIVALENT GLOBAL RESELLER EXPEDITED PACKAGE CONTRACTS 4 NEGOTIATED SERVICE AGREEMENT

(September 15, 2014)

In Order No. 2170, the Commission granted the Postal Service's request to add a new product identified as Global Reseller Expedited Package (GREP) Contracts 4 to the competitive product list.¹ The Commission determined that individual contracts may be included as part of the GREP Contracts 4 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the baseline agreement under the GREP Contracts 4 product grouping. That baseline agreement is the contract filed in Docket Nos. MC2014-38 and CP2014-67.²

In accordance with 39 C.F.R. § 3015.5 and Order No. 2170,³ the United States Postal Service (Postal Service) hereby gives notice that it is entering into an additional GREP Contracts 4 agreement. The contract at issue here is intended to replace the

Global Reseller Expedited Package Contracts 1 (GREP Contracts 1) agreement with the same customer, which was filed in Docket No. CP2014-29.⁴

The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. These include Excel files that contain the requisite financial models.

Redacted copies of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for the contract, and Governors' Decision No. 11-6 are filed as Attachments 1, 2, and 3, respectively. Attachment 4 to this Notice is the Postal Service's Application for Non-public Treatment of the materials filed under seal in this docket. A full discussion of the required elements of the application appears in Attachment 4. A public version of the Excel files, in which commercially sensitive information has been redacted, is included with this filing.

I. Background

The first GREP contract was filed on March 29, 2010.⁵ In Order No. 2170, the Commission designated the agreement that is the subject of Docket Nos. MC2014-38 and CP2014-67 as the baseline agreement for the GREP Contracts 4 product.⁶ The Postal Service demonstrates below that the agreement that is included with this filing is functionally equivalent to the first GREP Contracts 4 agreement that was the subject of Docket Nos. MC2014-38 and CP2014-67. Accordingly, the contract that is the subject of this docket should be included within the GREP Contracts 4 product.

⁴ The Postal Service intends to file a modification that terminates the customer's GREP 1 agreement the day prior to the effective date of the agreement that is the subject of this docket

⁵ Request of the United States Postal Service to Add Global Reseller Expedited Package Contracts to the Competitive Products List, and Notice of Filing (Under Seal) of Contract and Enabling Governors' Decision, Docket Nos. MC2010-21 and CP2010-36, March 29, 2010.

⁶ PRC Order No. 2170, at 6-7.

II. Identification of the Additional GREP Contracts 4 Agreement

The Postal Service submits that this additional GREP Contracts 4 agreement fits within the Mail Classification Schedule (MCS) language concerns the GREP Contracts 4 product grouping.⁷

III. Functional Equivalency of GREP Contracts 4 Agreement

This GREP Contracts 4 agreement is substantially similar to the contract filed in Docket Nos. MC2014-38 and CP2014-67. The contract shares similar cost and market characteristics with that contract. In Governors' Decision No. 11-6, the Governors established a pricing formula and classification that ensure that each outbound international competitive agreement (including GREP Contracts 4 agreements) meets the criteria of 39 U.S.C. § 3633 and the regulations promulgated thereunder. In addition, the GREP language in the MCS requires that each GREP contract must cover its attributable costs. The contract at issue here meets the Governors' criteria and thus exhibits similar cost and market characteristics to the contract filed in Docket Nos. MC2014-38 and CP2014-67.

The functional terms of the contract at issue are the same as those of the contract that is the subject of Docket Nos. MC2014-38 and CP2014-67, which serves as the baseline agreement for the GREP Contracts 4 product grouping. The benefits of the contract to the Postal Service are comparable as well. Therefore, the Postal Service submits that the contract is functionally equivalent to the contract that is the subject of

⁷ See PRC, (Draft) Mail Classification Schedule, posted January 27, 2014 (with revisions through August 29, 2014), available at http://prc.gov/prc-pages/library/mail-classification-schedule/default.aspx?view=mail, at 491-496.

Docket Nos. MC2014-38 and CP2014-67, and should be added to the competitive product list as a GREP Contracts 4 agreement.

In a concrete sense as well, this GREP contract shares the same cost and market characteristics as the contract filed in Docket Nos. MC2014-38 and CP2014-67. Customers for GREP Contracts 4 agreements are resellers that market Priority Mail Express International, Priority Mail International, and/or First-Class Package International Service at discounted prices, as well as Priority Mail International Regional Rate Boxes, to their customers, especially small- or medium-sized businesses. Prices offered under the contracts may differ depending on the postage commitments made by the customers. Prices also may differ depending upon when the agreement is signed, due to the incorporation of updated costing information. These differences, however, do not alter the contracts' functional equivalency. Because the agreement incorporates the same cost attributes and methodology, the relevant characteristics of this GREP contract are similar, if not the same, as the relevant characteristics of the GREP Contracts 4 agreement filed in Docket Nos. MC2014-38 and CP2014-67.

Like the contract that is the subject of Docket Nos. MC2014-38 and CP2014-67, this contract also fits within the parameters outlined by the Governors' Decision establishing the rates for GREP agreements. There are, however, differences between this contract and the contract that is the subject of Docket Nos. MC2014-38 and CP2014-67, which include:

- The name and address of the customer in the title and first paragraph of the agreement;
- A minor revision to the first Whereas paragraph;

- The addition of a third Whereas paragraph;
- A revised Article 11 concerning the term of the agreement;
- A revised Article 14, which concerns entire agreement and the survival of obligations;
- A revision to the reference in Article 16 to PRC docket numbers concerning the Annual Compliance Report, in which the Postal Service may file confidential information related to this agreement;
- Minor revisions to Article 25 concerning paragraph headings and reference citations;
- The identification of the customer's representative to receive notices under the agreement and the identity of the signatory to the agreement in Article 28; and
- A revised Article 31 concerning the Postal Service soliciting sales;
- An additional Article 33 concerning limitation of liability; and
- Revised Annexes to the agreement.

The Postal Service does not consider that the specified differences affect either the fundamental service the Postal Service is offering or the fundamental structure of the contract. Nothing detracts from the conclusion that this agreement is "functionally equivalent in all pertinent respects" to the contract that is the subject of Docket Nos. MC2014-38 and CP2014-67.

⁸ PRC Order No. 85, Order Concerning Global Plus Negotiated Service Agreements, Docket Nos. CP2008-8, CP2008-9, and CP2008-10, June 27, 2008, at 8.

Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that this GREP Contracts 4 agreement is in compliance with the requirements of 39 U.S.C. § 3633. In addition, this GREP Contracts 4 agreement is functionally equivalent to the baseline GREP 4 contract that is the subject of Docket Nos. MC2014-38 and CP2014-67. Accordingly, this contract should be added to the GREP Contracts 4 product grouping.

Certification of Prices for the Global Reseller Expedited Package Contract with

I, Steven Phelps, Manager, Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices for the Global Reseller Expedited Package Contract with The prices contained in this Contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Reseller Expedited Package Contracts, issued March 24, 2010 (Governors' Decision No. 10-1), which established prices by means of price floor and ceiling formulas.
I hereby certify that the numerical cost values underlying the prices in the contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage of in excess of the minimum required by the Governors' Decision, exclusive of pickup on demand and international ancillary services fees, are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The prices demonstrate that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. International competitive mail accounts for a relatively small percentage of the total contribution by all competitive products. Contribution from Global Reseller Expedited Package Contracts should be even smaller. The Agreement with should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED COMPETITIVE RATES (GOVERNORS' DECISION NO. 11-6)

March 22, 2011

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments, but nonetheless arise from other sources, such as the Universal Postal Convention.

Governors' Decision No. 11-6

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established all prices that will cover costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegee(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a quarterly basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant, new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

This Decision does not supersede or otherwise modify Governors' Decision Nos. 08-5, 08-6, 08-7, 08-8, 08-10, 08-20, 08-24, 09-5, 09-6, 09-7, 09-14, 09-15, 09-16, 10-1, 10-2, 10-3, 10-6, and 10-7, nor does it affect the validity of prices and classifications established under those Decisions. Management may also continue to present to the Postal Regulatory Commission for its review, as appropriate, rate and classification changes to succeed the minimum and maximum non-published rates in Decision Nos. 10-2 and 10-6.

ORDER

In accordance with the foregoing Decision of the Governors, the prices set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Prices and classification changes established pursuant to this Decision will take effect after filing with and completion of review by the Postal Regulatory Commission.

Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent nstruments (collectively, each "product") will be
The cost coverage for a product equals

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Express Mail, Parcel Return Service, Priority Mail International, Express Mail International, International Priority Airmail, International Surface Air Lift, Inbound Air Parcel Post, Inbound Surface Parcel Post, Inbound Direct Entry, and Inbound International Expedited Services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

Prices established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C.§ 3633(a)(3), which, as implemented by (39 C.F.R.§ 3015.7(c)) requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C.§ 3633(a)(1)).

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in these dockets. The materials pertain to an additional Global Reseller Expedited Package (GREP) contract that the Postal Service believes is functionally equivalent to the GREP contract filed in Docket Nos. MC2014-38 and CP2014-67. The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. Redacted copies of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) concerning the contract, and the related Governors' Decision establishing prices and classifications not of general applicability for GREP contracts are filed with the Notice as Attachments 1, 2, and 3, respectively.

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The

¹ The Postal Service informed the customer prior to filing its notice that it would be seeking non-public treatment of the redacted portions of each contract. The Postal Service also informed the customer that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3007.22.

Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of a GREP contract involving PC Postage, the Postal Service believes that the third parties with a proprietary interest in the materials are the customer with whom the contract is made and the PC Postage Provider(s) that the customer intends to use.³ The Postal Service maintains that customer identifying

² The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, March 20, 2009, at 11.

However, other postal operators can be considered to have a proprietary interest in some rate information in the financial workpapers included with this filing. The Postal Service maintains that such information should be withheld from public disclosure. In view of the practical difficulties, the Postal Service has not undertaken to inform all affected postal operators about the nature and scope of this filing and about the ability to address any confidentiality concerns directly with the Commission as provided in 39 C.F.R. § 3007.20(b). Due to language and cultural differences as well as the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to the relevant postal operators. The Postal Service identifies as an appropriate contact person Haley Eubanks, EMS Manager, International Postal Relations. Ms. Eubanks' phone number is (202) 268-4315, and her email address is Haley.N.Eubanks@usps.gov. The Postal Service acknowledges that 39 C.F.R. § 3007.21 (c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's filing in the absence of actual notice might be construed as beyond the scope of the Commission's rules, the Postal Service respectfully requests a waiver that would allow it to forgo providing a notice to each postal operator, and to designate a Postal Service employee as the

information should be withheld from public disclosure. Therefore, rather than identifying the customer of the contract under consideration and the PC Postage Provider(s) selected by the customer, the Postal Service gives notice that it has already informed the customer and the PC Postage Provider(s) selected by the customer, in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service employee responsible for providing notice to the third parties with proprietary interest in the materials filed in this docket is Ms. Kathy L. Lynch, Sales Support Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 2P021, Washington, DC 20260-4017, whose email address is kathy.l.lynch@usps.gov, and whose telephone number is 202-268-6662.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with the Notice filed by the Postal Service in this docket, the Postal Service included a GREP contract, financial workpapers, a statement certifying that the agreement should meet the requirements of 39 U.S.C. § 3633(a), and a copy of Governors' Decision No. 11-6. These materials were filed under seal, with redacted copies filed publicly, after notice to the customer. The Postal Service maintains that the redacted portions of the GREP contract, Governors Decision No. 11-6, related financial information, and identifying information concerning a GREP competitive contract customer should remain confidential.

contact person under these circumstances, since it is impractical to communicate with dozens of operators in multiple languages about this matter.

With regard to the GREP competitive contract filed in this docket, the redactions on page 1, and to the footers of each page, Article 28, and the signature block of the contract constitute the name or address of postal patrons whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2).

The redactions to Articles 7, 8, 12 and 14 protect information with specific impact on the customer, including the customer's commitment to the Postal Service, penalties in the event that the customer does not achieve its postage commitment, the timing and manner in which the Postal Service might change prices under the contract, the number of days' notification that must be provided to terminate the agreement, and the relationship of this agreement to other agreements.

The redactions applied to the Governors' Decision and financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the customer's mailing profile, business information of the PC Postage Provider that the customer intends to use, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material.

The Postal Service anticipates that the Commission will request the Postal Service to file cost, volume and revenue data associated with the agreement after the expiration of this agreement. When the Postal Service files the data that will show the

actual revenue and cost coverage of the customer's completed contract, the Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the contract that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers which have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, its competitors would take immediate advantage of it. The GREP competitive contracts include a provision allowing the Reseller to terminate its contract without cause by providing a certain number of days' notice. Therefore, there is a substantial likelihood of the Postal Service losing customers to a competitor that targets customers of the Postal Service with lower pricing.

Other redacted information in each contract includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, the penalty in the event the customer does not achieve the minimum revenue commitment, and the percentage of cost increase that may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the

information to assess the offers made by the Postal Service to its customers for any possible comparative vulnerabilities and could focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The Governors' Decision and financial workpapers filed with this notice include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. Similar information may be included in the cost, volume and revenue data associated with the agreement that the Commission may require the Postal Service to file after the expiration of this agreement. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required by the Mail Classification Schedule to demonstrate that each negotiated agreement within this group covers its attributable costs. Furthermore, the Postal Service's Governors have required that each contract be submitted to the Commission with a notice that complies with 39 C.F.R. § 3015.5. Competitors could take advantage of the information to offer lower pricing to GREP competitive contract customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant market.

Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the contract, from the information in the workpapers, or from the cost, volume and revenue data that the Commission may require the Postal Service to file after the agreement's expiration, whether additional margin for net profit exists between the contract and the contribution that GREP competitive contracts must make. From this information, each customer could attempt to negotiate ever-increasing incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even customers involved in GREP competitive contracts could use the information in the workpapers, or the cost, volume and revenue data associated with the expired agreement, in an attempt to renegotiate their own rates, threatening to terminate their current agreements, although the Postal Service considers this to be less likely than the risks previously identified.

Price information in the contract, the Governors' Decision, the financial spreadsheets, and any cost, volume and revenue data concerning the contract filed after the agreement's expiration consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer to assess the customer's underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

Information in the financial spreadsheets and any cost, volume and revenue data concerning this agreement filed after the expiration of this contract also consists of sensitive commercial information related to agreements between the Postal Service and

the PC Postage Provider selected by the customer. Such information would be extremely valuable to competitors of both the Postal Service and the PC Postage Provider. Using detailed information about such agreements, competitors would be able to better understand the costs of the postage programs used, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the PC Postage Provider could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service.

(5) At least one specific hypothetical, illustrative example of each alleged harm; Identified harm: Revealing customer identifying information would enable competitors to target the customers for sales and marketing purposes.

Hypothetical: The identity of the customer in this contract is revealed to the public.

Another delivery service has an employee monitoring the filing of GREP competitive contracts and passing along the information to its sales function. The competitor's sales representatives could quickly contact the Postal Service's customer and offer the customer lower rates or other incentives to terminate its contract with the Postal Service in favor of using the competitor's services.

Identified harm: Public disclosure of negotiated terms of the agreements could be used by competitors and potential customers to the Postal Service's detriment.

Hypothetical: Customer A signs a GREP competitive contract that is filed with the Postal Regulatory Commission. At the same time, Customer B is considering signing a GREP competitive contract and has no real concern about the penalty provision, which

calls for Customer B to pay up to \$10,000 in penalties if it fails to meet its minimum volume commitment before termination of the agreement. The information about Customer A's penalty provision is made public. Customer A's agreement calls for a \$5,000 maximum payment as penalty. Customer B sees the information. Customer B then insists that it will not agree to be obligated to pay any more than Customer A was obligated to pay, diminishing the Postal Service's bargaining leverage. The same rationale applies to commitment levels and price adjustment terms.

Identified harm: Public disclosure of the pricing included in the agreement would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly available rate information to insist that Customer B must receive lower rates than those the Postal Service has offered it, or Customer B will not use the Postal Service for its expedited package service delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which Customer B believes that the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which the Postal Service believes will still

satisfy total cost coverage for the agreement. Then, the customer uses other providers for destinations that are different than those for which the customer extracted lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that the Postal Service no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when the Postal Service first recognizes that the customer's practice and projected profile are at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on the GREP competitive contract product overall.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competing delivery service analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet the Postal Service's minimum statutory obligations for cost coverage and contribution to institutional costs. The competing delivery service then sets its own rates for products similar to what the Postal Service offers its GREP competitive contract customers under that threshold and markets its ability to guarantee to beat the Postal Service on price. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal

Service out of the business-to-business and customer-to-business services markets for which the GREP competitive contract product is designed.

Identified harm: Public disclosure of information in the contract and the financial workpapers would be used by the customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of the contract and financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products. The competitor uses that information to (i) conduct market intelligence on the customer's business practices and (ii) develop lower-cost alternatives using the customer's costs as a baseline.

Identified harm: Public disclosure of information in the contract and financial workpapers would be used by the competitors of the PC Postage Provider to the Postal Service and/or each PC Postage Provider's detriment.

Hypothetical: A firm competing with the customer's selected PC Postage Provider obtains a copy of the unredacted version of the contract and financial workpapers from the Commission's website. The firm uses the information to assess the PC Postage Provider's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide

leverage to other PC Postage Providers in their negotiations with the Postal Service concerning financial arrangements that PC Postage Providers make with the Postal Service in the future.

Identified harm: Public disclosure of any cost, volume and revenue data concerning this agreement that the Commission may require the Postal Service to file after the contract's expiration would give competitors a marketing advantage.

Hypothetical: A competitor could use any cost, volume and revenue data associated with this agreement, which the Commission may require the Postal Service to file in this docket after this agreement's expiration, to "qualify" potential customers. The competitor might focus its marketing efforts only on customers that have a certain mailing profile, and use information in the performance report to determine whether a customer met that profile.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant markets, including parcel and expedited services, as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
